Working together for better Orthodontics

 **In-Ovation[®] L**
Your choice for a beautiful smile.

Versatility and Ease of Use With a Fully Interactive Self-Ligating Lingual Bracket

Beautiful Results with Invisible Self-Ligation

With In-Ovation® L from DENTSPLY GAC, the future of orthodontics starts today. Small and smooth brackets, customized bonding pads, and an easy-to-use interactive clip provide a simplified high-performance lingual treatment solution for your most discerning patients. Offer your image-conscious patients a completely undetectable bracket that ensures beautiful results. In-Ovation® L combines the unparalleled aesthetic benefits of a lingual bracket with the functionality and reliability of self-ligation.

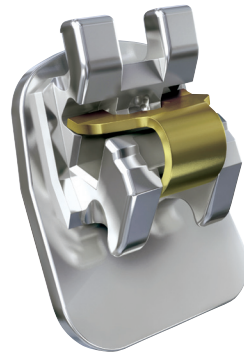

CUSTOMIZED BONDING PADS for exact positioning

ANATOMICALLY FIT COMPOUND CONTOUR BASE for proper placement, allowing for transmission of programmed activation

80 GAUGE SINGLE MESH MICRO-ETCHED BASE enhances bond strength

INDIVIDUAL COLOUR CODING WITH PALMER ID for easy bracket identification

TORQUE IN BASE delivers information to the centre of resistance

TWIN DESIGN with optimal mesial/distal span

TRIPLE-CHAMFERED SLOT WALLS facilitate archwire engagement

INTERACTIVE CLIP enables unprecedented control throughout treatment

SMOOTH-SWEPT TIE-WINGS for increased patient comfort

CONTROL

Interactive spring clip improves torque expression

Two contact points for superior rotation

Available in all standard prescriptions (Roth, Andrews, TGO and Roncone), in addition to your own customized prescription

EASE OF USE

Straight wire self-ligating system

Indirect bonding for accurate bracket placement

Easy open/close clip facilitates archwire changes

PATIENT COMFORT

Chamfered low profile increases comfort

Small, smooth design is comfortable to wear

Anatomically fit to ensure better oral hygiene

AESTHETICS

Lingual positioning for an undetectable solution

Contour base adapts perfectly to lingual placement

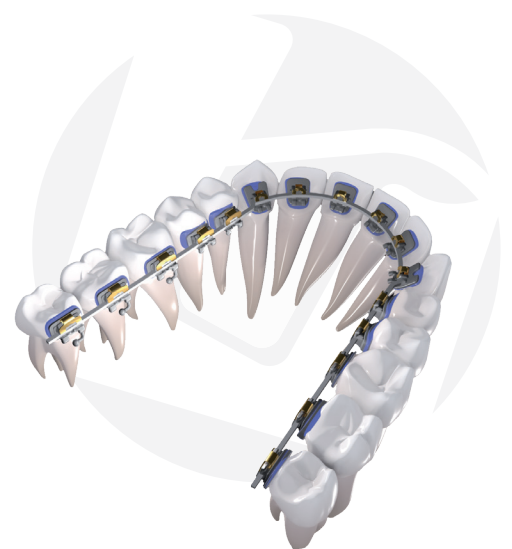

Patient-pleasing miniature size
